FORMING CONSCIENCES FOR FAITHFUL CITIZENSHIP

HUMAN LIFE

Living the Gospel of Life, declares, "Abortion and euthanasia have become preeminent threats to human life and dignity because they directly attack life itself, the most fundamental good and the condition for all others"(no. 5).Abortion, the deliberate killing of a human being before birth, is never morally acceptable and must always be opposed. Cloning and destruction of human embryos for research or even for potential cures are always wrong. The purposeful taking of human life by assisted suicide and euthanasia is not an act of mercy, but an unjustifiable assault on human life. Genocide, torture, and the direct and intentional targeting of noncombatants in war or terrorist attacks are always wrong.

Laws that legitimize any of these practices are profoundly unjust and immoral. Our Conference supports laws and policies to protect human life to the maximum degree possible, including constitutional protection for the unborn and legislative efforts to end abortion, assisted suicide, and euthanasia. We also promote a culture of life by supporting laws and programs that encourage childbirth and adoption over abortion and by addressing poverty, providing health care, and offering other assistance to pregnant women, children, and families.
